

GOPI KRISHNAN B

Thanjavur| bgopikrishnan2004@gmail.com |9043613746

OBJECTIVE:

"MCA graduate with a strong foundation in programming, databases, and problem-solving. Quick learner with a passion for applying technical skills to real-world challenges and contributing to organizational growth"

EDUCATION:

Bharathidasan University | MCA

Thanjavur | 2024-2026

Madras Christian College | B.Sc Mathematics

Chennai | 2021-2024

SKILLS:

- **Software tools and programming:** PYTHON, HTML & CSS, MONGO DB, C, C++, JAVA, JAVA SCRIPT, KOBOTOOL BOX, SQL.
- **Mathematical principles:** Analytical reasoning, Critical thinking, problem solving, Data analytics, Time management.
- **Communication:** Written and oral communication: English, Tamil

PROJECTS:

Book Loop –Book Exchange Platform:

Developed a web-based application that enables users to share, exchange or donate within community. Implemented features such as user interaction, Book listing and request handling to promote reuse and accessibility of books. Designed with a focus on usability and efficient data management.

Hall Ticket Generation System:

Built a web application for managing student records and generating Hall tickets with secure login functionality. Enabled students to view and download Hall tickets and Academic details, while providing an admin interface for managing data. Integrated database operations for efficient storage and retrieval.

Shutdown Notification System:

Created an automation script using Python that sends email notification before system shutdown to prevent data loss. Utilized SMTP for email alerts and system level operations for detecting shutdown events. Designed as a lightweight and practical utility tool.

CERTIFICATIONS:

Power BI Workshop ----OfficeMaster

Python Intermediate Course ---- EduBe

Excel Course ---- LinkedIn Learning
